Kabupaten Paser, Kalimantan Timur

I am a 6th semester student of Information Technology, Faculty of Engineering, Universitas Muhammadiyah Yogyakarta. I have an interest and expertise in programming, especially in front-end development. I have experience in developing web-based and mobile applications using various technologies such as HTML, CSS, JavaScript, Bootstrap, Spring Boot, Express.js, Laravel, C#, and Kotlin. I enjoy learning new things, and continue to develop my technical skills to support my contribution in the technology world.

Education Level

Universitas Muhammadiyah Yogyakarta - Tamantirto, Kec. Kasihan, Kabupaten Bantul, Daerah Istimewa Yogyakarta

Sep 2022 - Sep 2026 (Expected)

Bachelor of Information Technology, 3.66/4.00

- Being the chief executive of the work program of the Religious Division of BEM Faculty of Engineering

Organisational Experience

Spirituality Division, UMY Information Technology Student Family (KMTI)

- Present

Member

KMTI UMY is the Information Technology Student Family of Muhammadiyah University of Yogyakarta. This organization is a forum for students of Information Technology study programs at UMY to build kinship, bridge students with the study program, and develop themselves, especially in the field of information technology.

- Contribute to the planning and implementation of religious work programs, such as routine studies, spiritual training, and Islamic social activities.
- Coordinate activities with division members to strengthen spiritual values and Islamic character in the IT student environment.
- Support the creation of an organizational environment that is in line with Islamic values and supports the development of morals and leadership character.

Religious Division, Student Executive Board of Faculty of Engineering UMY (BEM KMFT)

- Present

Member

BEM KMFT UMY is an institution that accommodates KMFT UMY students in an effort to realize benefits for the KMFT UMY community. The Religious Division runs programs aimed at increasing religious awareness and the practice of Islamic values among students, both through joint worship activities, religious studies, and Islamic value-based social activities.

- Contributing to the planning and implementation of religious work programs, such as routine studies, tabligh akbar, and Islamic social activities such as visits to orphanages and the Sharing Technique program.
- Establish cooperation with various parties, both internal and external to BEM KMFT UMY, to support the smoothness and success of the Religious Division program.
- Actively strengthen Islamic values in campus life and build a religious and inclusive environment in the Faculty of Engineering.
